# The Promise of a Lifetime

The walk down the aisle, the first kiss, your initial moments as husband and wife. When every moment is so very precious, how can you be sure that your cherished memories will remain forever?

You can trust Prestige to capture the timeless moments of your wedding day and preserve those precious memories in an heirloom storybook worthy of your special day.

Our studio's artistic vision and technical expertise will help you transform your wedding day into an exceptional love story to be relived again and again.

Experience and devotion to our craft has taught us to observe unobtrusively from behind the lens. We are able to capture each enchanted moment.

As you will soon discover, planning a wedding can be overwhelming, but you've already taken the first step by making the call to us for your wedding photography. This informative brochure will provide you with a wealth of information about our services. After you review the information, your next step will be to make an appointment to visit with us to discuss your photography expectations, to help you decide if Prestige is right for you.

We are looking forward to meeting you!

## about the artist

Mark A. Campbell, M. Photog., Cr., CPP API

Mark Campbell has been photographing weddings since 1983 and opened Prestige Photography & Video in 1989. Since then, he has developed a unique style of contemporary wedding photography, which blends elegant formal portraits, artistic environmental images, and spontaneous candid photographs. His creative talents have received widespread attention, drawing clients from well outside the immediate area, having photographed weddings in Los Angeles, Florida, and New York, as well as throughout the tri-state area.

He has earned the degree of Master of Photography (M.Photog.) and Craftsman Photographer (Cr.) from the Professional Photographers of America. Mark is also a Certified Professional Photographer (CPP) PPA Approved Photographic Instructor (API).

Mark is a past president of the Professional Photographers of West Virginia and Triangle Photographers Association. He has represented West Virginia on PPA's National Council, and currently serves as the chairman of the PPA Bylaws, Rules and Ethics Committee.

Mark regularly enters his portraits in state, regional and national competitions. His images and albums have been awarded numerous first place trophies in state, regional and national competitions. Mark has won several Kodak Gallery and Fuji Masterpiece Awards, and his image "Fishermans Wharf" was selected for the PPA's prestigious Loan Collection Book, and was featured on the cover—an honor given to just one image out of approximately 5000 entries. Since then he has had 3 additional images selected for the Loan Collection and was named the 2015 WV Artist of the Year.

In addition to Mark's skill as a photographer, he is in high demand in the photographic industry as a speaker and instructor, sharing his knowledge and talent with other photographers all over the country. His first book, "Inspire Yourself" was released in early 2017 and contains work from his more creative efforts such as his unique underwater series "Beneath the Surface."

Mark has an easy-going personality which makes everyone feel comfortable working with him. He truly loves his work, and it shows in the portraits he creates. He is blessed with a unique talent for creating awesome images which will be treasured for a lifetime! And he did NOT write this bio 😊

# CERTIFIED

PROFESSIONAL PHOTOGRAPHER

## A symbol you can trust

When you hire a photographer for your wedding, you want the best. Unfortunately, anyone can claim to be a professional photographer—so ensuring that you get the best photographer for the job can be a difficult task. To make it easier for you, the Professional Photographers of America offers the **Certified Professional Photographer** program through the Photographic Certification Commission.

As the leading certifying agency and association for imaging professionals, PPA's Certification Program is recognized throughout the industry as a sign of excellence. When you see a photographer displaying the **Certified Professional Photographer** seal, you can be assured that he is among the less than 3 % of all imaging professionals who have successfully completed and maintained out requirements.

### **What is Certified Professional Photographer?**

**Certified Professional Photographer** (CPP) is a designation granted by the Photographic Certification Commission, the world's leading certification agency imaging professionals.

Those who have earned the CPP designation have passed a comprehensive written exam measuring their technical expertise, and have successfully submitted their work to a panel of judges for review and approval.

Every five years, **Certified Photographers** must renew their credentials by participating in continuing education programs and periodically submitting work for critical evaluation. This helps assure you that **Certified Photographers** maintain their level of expertise and continue to develop new skills and techniques.

### **Your Assurance of Quality**

Every day **Certified Professional Photographers** record the most important moments in life. And while every situation brings new challenges, you can be assured that the **Certified Professional** has the creativity and skills to deliver the best possible images for you.

Be assured that when you enter a studio that displays the **Certified Professional Photographer** emblem, you will be dealing with a professional who is dedicated to providing you with the highest level of professionalism and expertise available.

# Pricing

Fees and pricing are a two step process. First, there is an all inclusive fee which covers the photography, planning and everything through the day of the wedding (wedding day coverage may include pre-ceremony formals, ceremony, location portraits, and extends through up to three hours of your reception.) This fee ranges from \$3,000 to \$5,000 depending on the level of service required and length of time on the day of the wedding itself.

ALL wedding collections require some type of physical product to be included, such as albums, wall portraits, prints or digital files. These products and prices can vary greatly but as a guide, a typical custom designed and printed album for the bride and groom which includes nearly all of the images from the wedding day would require an investment in the neighborhood of \$3,500. Elsewhere in this brochure you will find current pricing for other available products.

To get an exact quote for a total investment, a face to face consultation is required to determine your needs.

## All Photography Collections Include:

- Rehearsal attendance and planning help
- Engagement and Bridal Portrait Sessions with Newspaper Announcement Photo
- Referral & Recommendation Services
- Free Internet Previewing & Secure Online Ordering for out of town family and friends
- Social media files of all edited images
